

Increased Safety Performance Target Detail

Alaska Accidents (FAA) This Year to Date (Sum)

Description

By FY 2009, reduce accidents in Alaska for general aviation and all Part 135 operations from the 2000 - 2002 average of 130 accidents per year to no more than 99 accidents per year.

FY 2006 Target: 115.

Period Table

	Actual	Target (Line)	Target (Line) - Index Range
10/2005	8	8	Yellow
11/2005	10	11	Yellow
12/2005	14	15	Yellow
01/2006	18	18	Yellow
02/2006	20	23	Green
03/2006	25	30	Green
04/2006	32	38	Green
05/2006	45	46	Yellow
06/2006	54	60	Green
07/2006		78	Unknown
08/2006		98	Unknown
09/2006		115	Unknown

Commentary (06/2006)

Green Target. There were 54 accidents in Alaska through June of FY2006 versus a not-to-exceed ceiling of 60. 11 were Part 135, but there has not been a Part 135 fatal accident in Alaska since FY 2004. Alaska experienced a total of only four fatal accidents this year. As a percentage of total accidents, Alaska continues to have one of the lowest proportions of fatal vs. non-fatal accidents, 7.4 percent. From 2000 through 2005, the national percentage of fatal accidents to total accidents was 19 percent. Alaska is at nine percent for those five years, with 65 fatal accidents out of 699.
